

Turnkey corporate sustainability & project implementation solutions

Earth Patrol is a specialist environmental and social governance consultancy and sustainable development partner. We provide comprehensive sustainability and carbon management solutions for future thinking brands across all sectors of the South African economy. Through partnership with our clients, we move beyond compliance to capitalise on opportunities in the Low Carbon Economy.

With a network of thought-leaders and technical specialists at our disposal, we provide a pre-competitive approach to sustainability focussed on creating a business case for transformation. We work with our clients to leverage social and environmental capital to drive measurable commercial returns.

Earth Patrol prides itself as the trusted specialist ESG advisor and project implementer delivering innovative and rewarding solutions to leading local and multi-national companies.

Our approach:

We approach sustainability holistically because we believe that every business is part of a broader system. Our suite of services have been crafted over the last 6 years to ensure relevancy and innovation within the local market. Earth Patrol will assist you in identifying sustainable growth opportunities while mitigating legal, reputational and market risks. This translates into equitable, adaptive and responsive business practices.

By guiding investment into initiatives and projects which focus on internal optimisation and long-term savings, we work with you to improve bottom line value and brand impact through highly visible projects geared to ensure long-term competitiveness.

What we do:

Corporate Strategy	Disclosure & Reporting	Project Implementation	Sustainable Development & Green Building
